## 2026 GOALS

- Organizing Single speed cyclocross world Championships
- Elite US gravel races
- US Gravel Nationals
- Looking for opportunities to write articles sharing my experiences and reviewing gear
- Continue running local cyclocross clinic series

## ABOUT ME

**On the bike,** Becca began racing informally in 2013 while working as a courier. After countless alley cats and fixed gear crits she invested in a USAC license and co-founded a women's team. After arriving at the velodrome with only a passion for cycling and love of competition, Becca advanced to a Cat 2 road, cyclocross and track cyclist, competing at an international level. Since 2023, she has focused on gravel and ultra-cycling, collecting podiums at Unbound XL and Gravel Worlds Long Voyage.

**Off the bike,** Becca is an architect and urban designer focused on advancing communities through equitable, sustainable design. She enjoys writing about the bike she just got off of, foraging, and training her dog to hunt truffles. She has written articles for bikepacking.com,, Bicycle Quarterly, and various brand sites.

## RACE RESULTS
